

AUTHENTIC AMERICA.

Live From America embodies the spirit of the authentic American experience. We enjoy the outdoors and understand the value of a clean Earth. We are a diverse group who strive for a work-life balance, while still making time for adventures. We use our talents and skills to make our way in the world. We applaud those who stand up for environmental causes and those who crave all things natural and sustainable.

This is the spirit of America -- the heart and soul of Live From America.
