

BRAND HISTORY

With the invention of the ExerSaucer in 1994, Evenflo introduced the world to the baby activity center as we know and love it today. A place where children are safe and entertained, and textures, colors, shapes and sounds inspire curiosity and wonder.

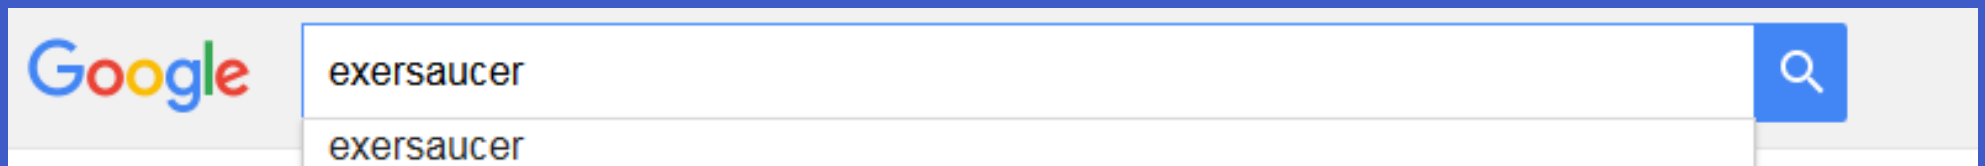

Time for you, time for baby – ExerSaucer provided valuable hands-free moments to get those little things done like throwing a load of laundry in or preparing a meal, so you can get back to the fun!

Best Baby Jumper of 2021 and Buying Guide

by Michelle Hand, Editor | Updated: January 28, 2021

Here's what to look for in a good jumper, and which jumper you NEED to buy!

Baby jumpers are one of those standard pieces of baby equipment that every single parent should own. Don't underestimate the power of baby exercise - a playing baby is a tired baby, and tired babies sleep more soundly.

So with a ton of jumpers to buy, which one should you jump at? A fancy one that folds away? A cheap and basic one? What about those special ones that fit in the doorway? I've researched, read reviews, asked around, and used my own experiences to pick the best baby jumper.

| Best Baby Jumper | Why It's Best | Rating |
|---|---|--------|
| Skip Hop Explore and More Baby's View | This is the most versatile and chic option on this list: It works as a play table, too! | ★★★★★ |
| Fisher-Price Rainforest Jumperoo | This classic jumper has lots of toys to keep baby entertained, although the quality isn't quite 5 star. | ★★★★★ |
| Baby Einstein Neighborhood's Ocean Discovery Jumper | This jumper has a swivel seat and is lightweight for easy movement, plus it folds down flat. | ★★★★★ |
| Evenflo Exersaucer Jump and Learn Jumper | The unique soft balance ball under this cute jumper helps with muscle toning and balance building. | ★★★★★ |
| Jolly Jumper Baby Jumper and Stand | The foldable stand helps make this hip-friendly doorway jumper a safer and space-saving option. | ★★★★★ |
